

Not My Business

Chorus

G

Not my business

G

not my business

G C D G

but I don't really understand

G

not my business

G

not my business

G Dsus4 D G

why you don't ask for her hand

Verse

G D G Dsus4 G C G

All that time you played as children

G C G Dsus4 G D G

you were happy as could be

G Dm7 F G C G F G

remember playing 'catch the outlaw'

G F G C G D G

she left you tied to that tree

Such a girl and what a baker

kind of girl you can adore

made those cup cakes for our family

but only put the salt in yours

Always kind so very popular

birthday parties full of friends

made your invite quite particular

wrong day or time after end

Your school play you were the hero

she helped get your costume true

such a shame that when she washed it

your white trousers came out blue

She arranged that walk and picnic

you and friends out all day long

came here early and such a shame

when others came your boots were gone

All that time and effort for you
to constant keep her in your mind
all your life you talked about her
just sayin' perhaps love is blind
