Verse

Horse hooves landin'
to a beat their own
humming and whistlin'
a song I've never known
its not got many words
but I'm singin' fine
all the words it does have
never do rhyme

Chorus

Try myself another verse
see how I get on
words have all changed
tunes now another one
ask my horse opinion
he don't seem to mind
so walk along some more
'n' try another time

Chorus

Watching all the dust
raised in front the sun
nature's morning light show
that the breeze begun
head 'cross to the water
see what's happenin'
silent 'cept the bubbling
inviting me in

Chorus

Really want to see you
but not finished my song
words all confused now
tune has gone all wrong
your cabin in the distance
as I look ahead
best I stop trying
and sing this again instead
