

## The Girl You Knew

### Verse

G                    C    G  
Hair tied up and diary open  
G                    C    G  
notebook lists of things to do  
G                    C            G  
planning minutes, days and hours  
Gm                  D    G  
always so much to get through  
G    C G        C    G  
I used to stare in awe of others  
G                    C GCGDG  
their busy-ness my jealousy  
G    D G    C G    C    G  
then one day my time just vanished  
G                  C G C G    C GD G  
now other women stare at me

### Chorus

G                    C    D    G  
Sometimes a day can feel a lifetime  
G                    DC G  
sometimes a lifetime feel a day  
G    D G        C G    C    G  
you asked where the girl you knew is  
G                  D G    D    D G  
she's in here and here to stay

Schooling had no grace or favour  
teaching same as those next door  
paint, the difference in our housing  
same clothes, same food, from same store  
such a lesson 'bout what matters  
the only difference who we are  
you say you see the special in me  
but did you ever look that far

Sometimes a day can feel a lifetime  
sometimes a lifetime feel a day  
you asked where the girl you knew is  
she's in here, never gone away

Work had no connected starting  
but no thought there would be one  
first day starts and each day follows  
then each day after til its done  
always loved what I've been doing  
proud of all I have achieved  
seen the chase of raw ambition  
and that's a cost to much for me

### Chorus

Sometimes a day can feel a lifetime  
sometimes a lifetime feel a day  
you asked where the girl you knew is  
she's living life in her own way

Sitting down to drink a coffee  
smiling as I take a look  
not just seeing what I'm lacking  
I wave hello and read my book  
love and comfort felt inside me  
my love for me I know is true  
hard work done, I can't be shaken  
this is who's in front of you

### Chorus

Sometimes a day can feel a lifetime  
sometimes a lifetime feel a day  
you asked where the girl you knew is  
from you I fear she's gone away
